CareVention HealthCare Announces New Educational Offering: PACE Provider Orientation

Eight-part Course Designed for Clinicians New to PACE

MOORESTOWN, NJ, (Sept. 30, 2021) – CareVention HealthCare, a division of Tabula Rasa HealthCare, Inc.® (TRHC) (NASDAQ: TRHC), today announced a new educational solution for Program of All-Inclusive Care for the Elderly (PACE) clinicians. PACE Provider Orientation includes the training and tools necessary to succeed in a team-centered, value-based care environment. The training consists of a series of eight one-hour core sessions to be offered annually in February, May, and October with the first course beginning Oct. 5, 2021.

“Our experienced team of physicians created this valuable resource, specifically for PACE organizations,” said course co-developer and presenter George W. Brett, MD, Senior Vice President for Consulting Services and Chief Medical Officer, Capstone Risk Adjustment Services, a CareVention HealthCare solution. “We believe it will be particularly beneficial for providers who may be new to the concept and philosophy of care inherent to the PACE model, or to those who may have limited experience working in an interdisciplinary team. The important information provided can enhance clinical team retention, improve quality of care provided to the most vulnerable persons in our community, and lead to more effective utilization of healthcare services.”

Many PACE clinicians may be new to value-based care and the PACE model. PACE Provider Orientation targets this group with sessions including the PACE Model of Care, Utilization Management, and PACE Regulations: Service Delivery Requests. The course is designed and presented by the physician-consultants of Capstone, all of whom are former PACE Medical Directors and experienced in educating physicians, nurse practitioners, and physician assistants.
